

## TENNIS COURT USAGE

- If anyone is playing or practicing tennis, no other activity is allowed on that particular court during that time. For example, children playing wallball on the backboard are not allowed to do so while someone is using that court for tennis, even if just hitting. This is for the safety of all players, spectators, and members. Spectators may stay on the court by sitting on the courtside benches.
- Priority of use for the courts is as follows, in this order: anyone (adults or children) playing or practicing tennis with a partner or partners, anyone practicing tennis on the backboard or on the court by themselves, anyone using the backboard or courts for other purposes (e.g., wallball, four square, etc.). Please be considerate both when asking to use the court for a higher priority as well as when asked.
- Please limit play to one hour when others are waiting.
- If an actual game is being played on the pool gate court, please wait for a break between points to enter or exit the court. When entering or exiting, please “follow the footsteps” to get to the other court (follow the fenceline and go down the middle alley to the bench, etc.). Do not cut across the pool gate court itself.
- No skateboards, roller skates, roller blades, tennis shoes with rollers, bicycles, etc. are allowed on the tennis court surface. Only soft-soled shoes are allowed on the tennis courts.
- Backboard is not for use with soccer, lacrosse, or other hard balls.
- Please be responsible for your own trash disposal while enjoying the tennis courts.
- **Courts are reserved one night a week for adult round robin tennis (generally, Thursday, 6-8pm). Other reserved events will be posted.**
- Exterior gate is to remain locked during open pool hours. Combination to the lock, subject to change from time to time, is available from Carter Chapman at 740-5130 or [chapsdeva@yahoo.com](mailto:chapsdeva@yahoo.com).

## HORSESHOE PIT USAGE

- Horseshoe pit usage without parental supervision is limited to members and guests 16 years and older. This is for the safety of all players, spectators, and members.
- Horseshoe sets and rakes are in the tool shed for member and guest use. Please return them to the shed when done and replace the orange safety cones over the horseshoe stakes as well.
- Please be responsible for your own trash disposal while enjoying the horseshoe pits.
